February 2, 2005

To Whom It May Concern:

This letter is being written on behalf of Mr. Glenn Gordon. My business partner and I have had a close working relationship with Glenn since early 1997. We own a chocolate imprinting business, selling imprinting machines and imprinted chocolate coins. At the time we met Glenn, he purchased one of our machines through his family chocolate business. He took it upon himself to modify our design and then contacted us with the modification. After sending us back our machine for our inspection, we incorporated his modifications into our equipment.

Glenn is very detail oriented and precision adept. After working with Glenn in such a successful manner on this first project we decided to hire Glenn to design a large run imprinting machine, from conception to production. Glenn handled this project just as efficiently as he had our previous project. The large run machine Glenn designed was exactly what we were hoping for, and was put into production and sales in the winter of 1998.

Mr. Gordon possesses the strong attributes of integrity, self-direction, reliability and clear engineering design talent. He is focused, easy to work with and honest. I highly recommend him to any future employer. I would also like to add, that any of our design projects in the future will be offered to Mr. Gordon first!

Sincerely,

William C. Bratt
